

## We are able

### product range

Synchronising pulleys, ATP-pulleys, SF-pulleys, self-tracking pulleys, RPP-tracking pulleys (Gates profile), HTD-pulleys (Conti-and Gates Profile), Synchrochain-pulleys, Poly-Chain-GT-pulleys, GT-MR-pulleys, Super-Torque-pulleys, Inch-pulleys, V-pulleys, Mulco-tension pulleys, V-belt pulleys, Gears (Modul 0,5-9), Clamp plates, Special bores & keyways (own milling production for desired profiles)

### materials

aluminium, steel, stainless steel, brass, bronze, plastics

### surface treatment

anodasing (all colours), hard-coating, burnishing, chemically nickel-plating, electrochemical polishing, phosphating, zinc coating, chromium plating, gliss-coating, ematal coating and all conventional hardening processes

### balance

dynamic + static

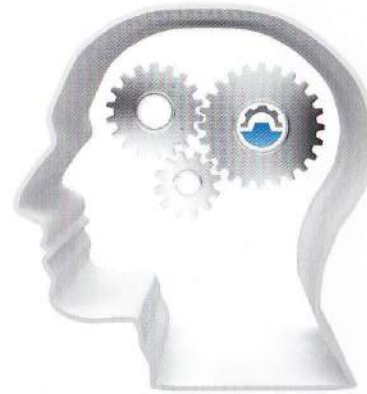

### Laser welding

### Laser cutting

all contours up to 3mm

### Laser signing

3D measurement and optical measurement

MASCHINENBAU GMBH 

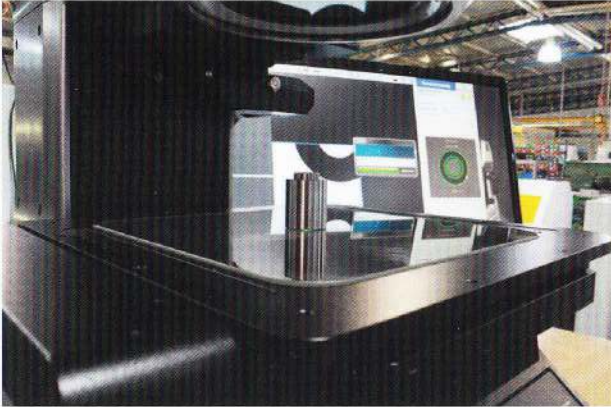

Antreiben.  
Fördern. Bewegen.

**GÜNTER SIEVERS**  
MASCHINENBAU GMBH 

## Quality assurance

optical measurement including measurement protocol option

3D- measurement including 3D measurement protocol option

## Laser

Laser cutting

Laser welding

Laser signing

## new additions of machines

Pfauter gear-cutting machine

New: Gear up to 1250mm possible

two new TTC300 turning and milling machines up to  $\varnothing 65\text{mm}$

TC 800 turning machine up to  $\varnothing 80\text{mm}$
